HONEYCOMB CLINIC® riduce il rischio di infezione batterica da legionella o Pseudomonas
HONEYCOMB CLINIC® it reduces the risk of bacterial infection from legionella or Pseudomonas

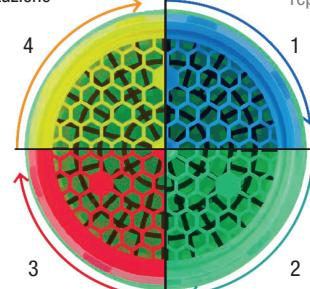

Una sostituzione regolare degli aeratori garantisce un elevato standard di igiene.
HONEYCOMB CLINIC favorisce la regolarità di questa sostituzione grazie ad un semplice sistema di colori: la parte interna dell'aeratore può essere di quattro diversi colori, ciascuno dei quali rappresenta un ciclo di sostituzione.
Questo permette di determinare e di controllare in ogni momento se la sostituzione è stata effettuata correttamente e regolarmente.

Regular replacement of the aerators guarantees a high standard of hygiene.

HONEYCOMB CLINIC favors the regularity of this replacement thanks to a simple color system: the interior of the aerator can be of four different colors, each of which represents a replacement cycle.

This allows you to determine and check at any time whether the replacement was done correctly and regularly.
